

Pager Watch

TL-XTC03

A durable ABS+PC pager watch, operating at 433MHz, powered by a 3.7V 400mAh battery.

Applications

- Restaurants – For communication between servers and kitchen staff.
- Hospitals – To alert nurses and doctors for patient care or emergencies.
- Hotels – For staff coordination, such as housekeeping and concierge services.
- Factories – To notify workers about tasks or safety alerts.
- Retail Stores – For staff communication or customer service.
- Event Management – To coordinate between team members during large events.
- Warehouses – For stock management and team coordination.
- Care Homes – To alert caregivers to residents' needs.
- Security Services – For quick, discreet communication between security personnel.
- Office Buildings – For internal staff communication, especially in large facilities.

Features

- Multi-Message Display: Capable of displaying up to four groups of messages simultaneously on the screen.
- Waterproof Design: The watch is designed to be waterproof, ensuring durability in various environments.
- High Call Button Capacity: Supports pairing with up to 500 call buttons for enhanced flexibility.
- Screen Receiver Integration: Optional connection to an external screen receiver for centralized message viewing.
- Kitchen Integration: Can be linked to a kitchen system via a transmitter for seamless communication with chefs.
- Universal Button Compatibility: Compatible with all call buttons within the system, allowing easy pairing.
- Key Button Activation: The watch responds when the key button is pressed for instant notifications.
- Fast Charging: Fully charges in just two hours, ensuring minimal downtime.
- Customizable Display Text: Watch text can be fully customized to meet specific requirements.
- Multilingual Support: Available languages include Russian, English, Italian, Spanish, and French.
- Extended Standby Time: 32 hours in standard mode and up to 70 hours in power-saving mode.
- Custom Key Text: Key text can be displayed in any language, except Arabic.
- Customizable Logo: The logo displayed on the screen can be tailored to individual preferences.
- PC Connectivity: Connects to a computer via software and a screen receiver for advanced configuration.
- Notification Modes: Offers vibrate, buzzer, and display modes for alert notifications.
- Power Source: Powered by a rechargeable battery for continuous use.
