TL-AK02

"Material: ABS+Acrylic Frequency: 433MHZ Battery:12V/23A
,Colour : Black, Size: 70*70*15mm".

Applications

- **Restaurants:** Enables chefs or kitchen staff to quickly summon waitstaff for order pickups, ensuring smooth communication and faster service.
- **Hospitals and Clinics:** Allows patients to alert nurses or medical staff when assistance is needed, enhancing response times in healthcare settings.
- **Hotels:** Facilitates guest requests by allowing them to call for room service, housekeeping, or other services directly from their room.
- **Factories:** Workers on the production floor can use the system to notify supervisors or maintenance teams of equipment issues or urgent needs.
- **Offices:** Used to streamline internal communication, enabling staff to request assistance or alert teams about meetings or deliveries.
- **Supermarkets and Retail:** Allows customers or staff to call for assistance at service counters or in-store departments.
- **Warehouses:** Warehouse personnel can use the system to call for additional labor, equipment, or supervisor assistance.
- **Schools and Universities:** Teachers or administrative staff can use it to alert maintenance teams or call for assistance in classrooms or halls.
- **Senior Care Homes:** Residents can use the system to call caregivers, ensuring prompt attention in cases of medical needs or assistance with daily tasks.
- **Event Management:** Event staff can use the system to communicate backstage, with security, or among different event teams for coordinated operations.

Features

- **Customizable Icon Display:** Icons can be modified to suit specific user requirements or brand identity.
- **Tailored Keyword Configuration:** Keywords are fully customizable, allowing for specific command or function adjustments.
- **Logo Customization for Small Orders:** Even for smaller order quantities, custom logos can be integrated to enhance brand recognition.
- **Watch Signal Range:** The signal coverage reaches up to 130 meters in open environments when paired with a wristwatch receiver.
- **Screen Receiver Signal Range:** Supports a signal range of approximately 200 meters in open areas when connected to a screen receiver.
- **Battery Life:** Provides a battery lifespan of 8-12 months, depending on usage frequency.
- **Power Control via ON/Off Switch:** Equipped with an ON/OFF switch for efficient power management and reduced energy consumption.
