

3-key call button

TL-XFC03

“Material: ABS , 12V/23A battery, Frequency: 433MHZ
, Colour: Black + White, Size Base: Dia6x1.2cm”.

Applications

- **Restaurants:** Enables chefs or kitchen staff to quickly summon waitstaff for order pickups, ensuring smooth communication and faster service.
- **Hospitals and Clinics:** Allows patients to alert nurses or medical staff when assistance is needed, enhancing response times in healthcare settings.
- **Hotels:** Facilitates guest requests by allowing them to call for room service, housekeeping, or other services directly from their room.
- **Factories:** Workers on the production floor can use the system to notify supervisors or maintenance teams of equipment issues or urgent needs.
- **Offices:** Used to streamline internal communication, enabling staff to request assistance or alert teams about meetings or deliveries.
- **Supermarkets and Retail:** Allows customers or staff to call for assistance at service counters or in-store departments.
- **Warehouses:** Warehouse personnel can use the system to call for additional labor, equipment, or supervisor assistance.
- **Schools and Universities:** Teachers or administrative staff can use it to alert maintenance teams or call for assistance in classrooms or halls.
- **Senior Care Homes:** Residents can use the system to call caregivers, ensuring prompt attention in cases of medical needs or assistance with daily tasks.
- **Event Management:** Event staff can use the system to communicate backstage, with security, or among different event teams for coordinated operations.

Features

- **Waterproof Design:** The device is fully waterproof, ensuring durability in various environments.
- **3-Key Call Button:** Features a 3-key call function for multiple, customizable communication options.
- **Battery Warranty:** Comes with a 1-year warranty for the battery, which is easily replaceable.
- **Connectivity:** Compatible with both wrist watch receivers and monitor displays for real-time communication and monitoring..
