

Model No.TLIOTQ1

Specifications:

1. Override Computer Key for Emergency use, individual/master cylinder, Self Error detecting by LED and "beep". Improper lock warning
 2. Temic 5557 card or Mifare 1K, compatible with Energy Saver
 3. ANSI Standard mortise/Euro standard mortise. Inside Dead Bolt. Inside handle retracts latches and deadbolt
 4. Power: 6V AA alkaline batteries, 18 months' duration, low Battery Voltage warning. (Lower than 3.5 V)
 5. Service Durability: more than 100000 times
 6. The Range of Gate Thickness: 38~55mm
 7. Humidity: $\leq 95\%$
 8. Working Temperature: -45 degrees centigrade~80 degrees centigrade
 9. Effective Time of Opening the Lock: 5 seconds
 10. Life Time: 10 years
 11. Suitable door: Wooden door, fire-proof door, metal door and so on
 12. Inductive Distance: $\geq 20\text{mm}$
 13. Static Load $< 10\text{Ua}$, Working Load: 100Ma-150Ma
 14. Step by step installation software, easy operation. OEM locking system available.
- Classified Access Authorization for safety management.
